Congratulations!

Adrian is a very caring person and is always willing to help out. He takes his primary job as our bus driver seriously and operates safely at all times. He is not only a tremendous help to the residents who utilize this service, but he also fills in to assist other departments when needed- be it being our receptionist, answering phones or calling a game of Bingo for activities. We are all very lucky to have Adrian Pinedo here with us at Park Regency Retirement Center. His compassion and caring go above and beyond.

Michelle oh Michelle, this girl always comes to work with a positive attitude and a smile on her face. She loves to get her work done as soon as possible to be available to help in other areas. Sometimes she reminds me of a robot.

She is always laughing with the residents and makes them feel so welcomed. She is a great person to work with and I really enjoy working with her.

Congratulations!

Vanessa Delgado, our Med. Tech never fails to express her care for our residents. She greets them with kindness and responds to their needs with such patience and understanding. She goes above and beyond what is expected of her. One day Vanessa was asked to come in early to work the floor to assist with caregiving while other caregivers took their first aid class. Not only did she respond to the calls with urgency but during her "down time" (as she called it) she found something else to do... take out the trash from several rooms and even the front offices. When I offered to even pull out my trash she responded with a kind "No, No honey it's ok I'll do it".

I am in awe of her for setting a beautiful example. She always lends a hand and shows such team work. Thank You Vane'!

Thank you for creating a unique care experience for a resident who is visually impaired and cannot see his pills.....

Selina takes the time to find and create a way to help him succeed in taking his medication. She realizes if she walks up to him and says, "growl", then he will repeat her and will put out his hand for his pills. This resident's daughter was so happy when she saw this interaction and felt as though Selina went out of her way to meet her dad's healthcare and individual needs. Way to go Selina!
